UDBHAV'26

BY ALTA SCHOOL OF TECHNOLOGY

Sage University, Indore • 25–26 April 2026

WEBSITE SPECIFICATION DOCUMENT

For the Tech Development Team

Document Version v1.1 • April 2026

These specifications are based on the current requirements.If you have any suggestions for improvements, or if anything is unclear, confusing, or requires additional information, please feel free to reach out.

TABLE OF CONTENTS

01 | Project Overview
02 | Website Page Structure
03 | Page-by-Page Specifications
04 | Round 2 Registration — Form & Payment
05 | PS Drop System
06 | Admin Panel

01 | PROJECT OVERVIEW

This document is the complete functional specification for the UDBHAV'26 hackathon website. The website serves as the single source of truth for all participants, judges, mentors, and sponsors — covering event information, registration, the PS drop system on event day, and admin management.

Key Functional Goals

- Provide all hackathon information in one place — dates, tracks, timeline, rules.
- Handle Round 1 Unstop registration via an external link.
- Handle Round 2 registration natively with Razorpay payment integration.
- Run the Problem Statement (PS) Drop on event morning — live, real-time, with slot locking.
- Give admin full control over registrations, payments, PS management, and results publishing.

Event Summary

#	Field	Details
1	Event Name	UDBHAV'26 — By Alta School of Technology
2	Date	25–26 April 2026 (24-hour non-stop)
3	Venue	Sage University, Indore
4	Teams	50 Teams (2–4 members each), 200+ participants
5	Prize Pool	₹45,000
6	Registration R1	Unstop (external link)
7	Registration R2	Website (udbhav26.in) + Razorpay
8	PS Drop Timing	10:45 AM – 11:00 AM on 25 April 2026

02 | WEBSITE PAGE STRUCTURE

The website has 5 public-facing routes and a protected Admin Panel. All informational content (About, Tracks, Timeline, Judging, Sponsors, Contact) lives as scrollable sections on the home page (/).

Public Pages

#	Page / Route	Purpose
1	/	Home — Hero, About, Tracks, Timeline, Judging, Sponsors, Contact (all as sections)
2	/register	Round 2 registration form + Razorpay payment (for shortlisted teams)
3	/ps	Problem Statement Drop page (live on event day)
4	/conduct	Code of Conduct
5	/winners	Winners page (hidden until published by admin)

Protected Pages (Admin Panel)

#	Page / Route	Purpose
1	/admin/login	Admin login (single admin account)
2	/admin/dashboard	Overview stats dashboard
3	/admin/registrations	View, filter, export Round 2 registrations
4	/admin/payments	Razorpay payment status per team
5	/admin/ps	Add/edit PS titles, set drop window, start/stop
6	/admin/ps-stats	PS selection stats — who picked what
7	/admin/winners	Enter and publish winners

03 | PAGE-BY-PAGE SPECIFICATIONS

3.1 — Home Page (/)

The home page is the primary landing page and contains all informational content as scrollable sections. It must immediately communicate the event's identity, energy, and key info. It should look bold and professional.

Sections — in order from top to bottom

Navbar

- Logo (left) — UDBHAV'26 text or brand mark
- Nav links: Home, About, Tracks, Timeline, Judging, Register, Sponsors, Contact
- CTA button in navbar: Register Now (links to /register)
- Sticky on scroll

Hero Section

- Headline: UDBHAV'26 — 24-Hour Hackathon
- Subtext: By Alta School of Technology | Sage University, Indore | 25–26 April 2026
- Two CTAs: Register Now (Round 1 — Unstop) and Register for Round 2 (links to /register)
- Background: dark theme or full-width graphic — bold, techy

Stats Bar

- 4 animated counters: ₹50,000 Prize Pool | 50 Teams | 200+ Participants | 24 Hours

About Section (#about)

- What is UDBHAV'26 — full event description
- Why participate — benefits for participants
- Organising Body — Enclop / Alta School of Technology / Sunstone
- Organising team members with names and roles
- Past events / credibility section

Event Highlights Cards

- 3–4 cards: Format, Venue, Date, Prize Pool

Tracks Section (#tracks)

- Display all 6 problem domains with icons, names, and short descriptions
- Icon style should be consistent — outlined or filled, not mixed

Track	Description
HealthTech & MedTech	Healthcare, diagnostics, patient management, medical devices
FinTech & Web3	Financial services, crypto, DeFi, payments
EdTech & Skilling	Learning platforms, skill development, assessments
Sustainability & GreenTech	Climate, energy, circular economy, environment

Track	Description
Smart Cities & IoT	Urban infrastructure, connected devices, mobility

Timeline Section (#timeline)

Display the full 24-hour schedule as a visual vertical timeline. Each item shows the time, phase name, and a one-line description.

Time	Phase	Description
8:00–9:30 AM	Doors Open	Check-in & On-boarding
10:00 AM	Kickoff	Orientation Session
10:45 AM	PS Drop	Problem Statement Live — Teams Choose PS (15 min window)
11:00 AM–1:00 PM	Build Sprint 1	Hacking Begins — Thinking & Planning Phase (2H)
1:00–2:00 PM	Lunch Break	Meal Break
2:00–5:00 PM	Build Sprint 2	Deep Work Mode (3H)
5:00–6:00 PM	Strategy Pivot	Mentor Interaction + Snacks & Activity (from 5:30)
6:00–8:00 PM	Build Sprint 3	Grind Mode (2H)
8:00 PM	Power Dinner	Dinner Break
9:00 PM–2:00 AM	Build Sprint 4	Midnight Push (5H) + Optional Midnight Snack
2:00 AM	Demo Pitch	Pitch Round + GitHub Submission Deadline
3:00–7:00 AM	Final Sprint	Last Stand — Final Build Phase (4H)
7:00–8:00 AM	Final Pitch	GitHub + Deck + Live Link Submission
8:00 AM	Breakfast	Recharge Before the Verdict
8:30 AM	Results Drop	Results Announced — Eliminated Teams Dismissed
9:00–10:00 AM	Grand Presentation	Final PPT Presentation Round
10:30–11:00 AM	Closing Ceremony	Prize Distribution & Grand Finale

Judging Criteria Section (#judging)

- Explain how projects will be evaluated.
- Show as a table or card grid with: criteria name, description, and weightage.

📌 *Note: Prince / Rishabh to provide the final Judging Criteria text to the tech team.*

Sponsors Section (#sponsors)

- Three-tier logo grid: Title Sponsor, Gold Sponsors, Silver Sponsors
- Show 'Coming Soon' placeholder cards for unfilled slots
- Each logo links to sponsor's website (in new tab) once provided

Contact Section (#contact)

Person	Contact Details
Rishabh Vyas — Lead Organiser	rishabhvyas222@gmail.com	+91 9575625112
Prince Yadav — Co-Lead Organiser	princeyadav810py@gmail.com	+91 8591442334

Footer

- Event name, date, venue, contact emails and phones for both organisers
- Quick links to all page sections and separate pages (/register, /ps, /conduct, /winners)

📌 *Note: The PS Drop countdown timer is NOT on the home page. It lives exclusively on /ps.*

3.2 — Code of Conduct (/conduct)

Display the full Code of Conduct as a clean, readable, easy-to-scroll page.

📌 *Note: Prince / Rishabh to provide the final Code of Conduct text to the tech team.*

3.3 — Winners Page (/winners)

- Default state: page is visible but shows ???? for all winner names and team details
- Once admin publishes winners from /admin/winners: actual winner details appear
- Show: 1st Place, 2nd Place, 3rd Place with team name, members, prize amount
- Optionally: track prizes or special mentions
- Confetti animation or similar on page load once winners are published (optional but nice)

04 | ROUND 2 REGISTRATION — FORM & PAYMENT

The /register page handles Round 2 registration exclusively (shortlisted teams only). It should clearly explain the two-round structure before showing the form.

Registration Flow (shown at top of page)

Step	Stage	Details
1	Register on Unstop (Round 1)	Pay ₹100, submit team details — deadline 10 April 2026
2	Submit PPT	Upload idea, tech stack, expected outcome before deadline
3	Shortlisting — 12 April	Top 50 teams notified via email + WhatsApp
4	Q&A & Guidance Sessions	One offline + one online session for shortlisted teams
5	Register for Grand Hackathon (Round 2)	Fill form on this website + Pay ₹800 (+ optional ₹300 mentor) via Razorpay
6	Attend UDBHAV'26	25 April at Sage University, Indore — build for 24 hours

Round 1 Button

- Large CTA button — Register on Unstop
- Opens Unstop registration link in a new tab
- Show note: Round 1 deadline — 10 April 2026. Only shortlisted teams proceed to Round 2.

4.1 — Form Fields

All fields are mandatory unless marked optional. The form collects one submission per team.

Team Info

Field	Input Type	Notes
Team Name	Text input	Unique per submission
College Name	Text input	—
Branch (all members)	Text input	E.g., CSE, IT, ECE
Year of Study (all members)	Dropdown — 1st to 4th Year	—

Team Leader

Field	Input Type	Notes
Full Name	Text input	—
Email Address	Email input	Used for communication & Team Code delivery

Field	Input Type	Notes
Phone Number	Phone input	+91 format

Members 2–4

Members 2 and 3 are optional; Member 2 is mandatory. All use the same fields: Full Name, Email, Phone. Show/hide via +Add Member button.

Mentor & Payment

Field	Input Type	Notes
I want a Mentor Session (₹300 extra)	Checkbox	Unchecked by default. Checking adds ₹300 to total.
Total Payable	Auto-calculated display	₹800 (default) or ₹1,100 (with mentor). Not editable.

Agreement Checkboxes (Both Mandatory)

Checkbox Label	Behaviour
I agree to the Terms & Conditions of UDBHAV'26	Must be checked to enable Pay button
I have read and agree to the Code of Conduct	Must be checked to enable Pay button

📌 *Note: The Pay Now button remains disabled until both checkboxes are ticked.*

4.2 — Razorpay Payment Integration

- Payment gateway: Razorpay
- Amounts: ₹800 (standard) or ₹1,100 (with mentor) — determined by mentor checkbox
- Payment is triggered on clicking Pay Now after form validation
- On successful payment: generate a unique 6-character alphanumeric Team Code (e.g. UDB-7K3X) and store it in the database against the team record
- Send Team Code to Team Leader email immediately after payment confirmation
- On failed payment: show error, allow retry — do not save form entry
- Store Razorpay Payment ID and Order ID in database for admin reconciliation

📌 *Note: Team Code is the authentication key for PS Drop access on event day. Must be emailed within 60 seconds of payment.*

4.3 — Post-Registration

- Show success screen with: Team Name, Team Code, amount paid, mentor status
- Confirmation email to Team Leader contains: Team Code, event date/venue, what to bring, contact details
- Admin sees new entry immediately in /admin/registrations dashboard

05 | PS DROP SYSTEM

5.1 — Overview

The Problem Statement Drop is one of the most critical and unique features of this website. At exactly 10:45 AM on 25 April 2026, 10 Problem Statements are revealed to all shortlisted teams simultaneously. Teams have a 15-minute window (10:45 to 11:00 AM) to choose one PS. Each PS can only be chosen by a maximum of 5 teams — first come, first served.

Parameter	Value
Total PS	10 Problem Statements
Teams per PS	Maximum 5 teams (first come, first served)
Total Teams	50 teams (10 PS × 5 teams)
Drop Time	10:45 AM — configurable from Admin Panel
Window Duration	15 minutes (10:45 AM to 11:00 AM)
Authentication	Team Code (issued after Round 2 payment)
PS Visibility	PS titles are hidden until the window opens. Not visible before 10:45 AM.
Lock	Selection is final — no changes after confirmation

5.2 — /ps Page — States & Behaviour

The PS Drop page (/ps) behaves differently depending on the current time and admin configuration. There are four distinct states:

State	What User Sees	Trigger
Pre-Drop (before 10:45 AM)	Countdown timer + message: PS Drop opens at 10:45 AM. Be ready with your Team Code.	Before admin-set start time
Active (10:45–11:00 AM)	Team Code input box → 10 PS cards with slot counters → Select button	Admin starts drop or time reaches trigger
Closed (after 11:00 AM or admin stops)	Message: PS selection is closed. Check your Team Code email for your PS.	After window ends or admin stops
Already Selected	Team's chosen PS displayed. No re-selection allowed.	Team Code already used to pick a PS

5.3 — PS Selection Flow (Active State)

1. Team visits /ps and sees the active selection screen
2. Team enters their 6-character Team Code in the input field
3. System validates the Team Code — checks it exists and has not already been used for PS selection

4. 10 PS cards are displayed — each showing: PS title, slots remaining (e.g. 3/5 slots left)
5. Team clicks Select on one PS. A confirmation modal appears: Confirm your PS selection: [PS Title]. This cannot be changed.
6. On confirm: system atomically decrements that PS's slot count. If already at 5/5 (full), reject and show PS is now full — please select another.
7. Team Code is marked as used for PS selection — cannot be reused. Selection screen is replaced with confirmation screen showing chosen PS.

5.4 — Anti-Abuse Rules

- One Team Code = One PS selection only. The Team Code is tied to the team record in the database.
- If a team has 4 members, all 4 carry the same Team Code — the system prevents double-booking because it marks the code as used after the first selection.
- PS slot decrement must be atomic (use DB transaction or equivalent) to prevent two teams grabbing the last slot simultaneously.
- Rate limit the /ps selection endpoint — max 3 attempts per Team Code per minute.
- PS titles must NOT appear in the page source before the drop window opens. Fetch them from the server only after the window is active.

📌 *Note: Slot counts must update in real-time (WebSocket or polling every 3–5 seconds) so all teams see live availability without refreshing the page.*

06 | ADMIN PANEL

6.1 — Admin Login (/admin/login)

- Single admin account — username + password
- No public sign-up. Credentials set in environment variables or seeded in DB.
- Session-based or JWT authentication — session expires after 8 hours
- All /admin/* routes redirect to /admin/login if not authenticated

6.2 — Dashboard (/admin/dashboard)

Overview of key stats at a glance:

- Total Round 2 Registrations
- Total Payments Received (₹ amount)
- Teams with Mentor Fee vs without
- PS Selections completed vs pending (during/after event)
- Winners published status (Yes / No)

6.3 — Registrations (/admin/registrations)

- Table view of all Round 2 registrations
- Columns: Team Code, Team Name, College, Leader Name, Leader Email, Leader Phone, Members Count, Mentor, Payment Status, Payment ID, Amount, Date
- Filter by: Payment Status (Paid / Failed), Mentor (Yes / No), College
- Search by Team Name, Leader Name, Team Code
- Export to CSV / Excel — full data export
- Click a row to expand full team details including all member names, emails, phones

6.4 — Payments (/admin/payments)

- List of all Razorpay transactions with: Order ID, Payment ID, Amount, Status, Date
- Highlight failed or pending payments
- Export payments data to CSV
- Link to Razorpay dashboard for detailed reconciliation

6.5 — PS Management (/admin/ps)

- Add up to 10 PS entries — each entry is just a title (plain text)
- Edit or delete PS titles before the drop window
- Set PS Drop Start Time — date + time picker (admin can change this anytime before the window)
- Set PS Drop End Time — default 15 minutes after start, but admin can override
- Start Drop Now button — manually trigger the PS drop regardless of scheduled time
- Stop Drop button — manually close the PS selection window
- Status indicator — shows whether PS drop is: Scheduled / Active / Closed

📌 *Note: Even if PS Drop is set to auto-start at 10:45 AM, admin should have the Start/Stop override buttons as a safety net in case of technical delays.*

6.6 — PS Stats (/admin/ps-stats)

- Table showing all 10 PS titles with: Title, Teams Selected (0–5), Slots Remaining
- Second table: Team-wise PS selection log — Team Code, Team Name, PS Title, Time of Selection
- Export both tables to CSV
- Real-time refresh (auto-refresh every 30 seconds during event)

6.7 — Winners (/admin/winners)

- Input fields for winner details: 1st Place, 2nd Place, 3rd Place (and any special/track prizes)
- Fields per winner entry: Rank, Team Name, Team Code, Prize Amount, PS Title
- Save Draft — saves winners but keeps /winners page showing ???? placeholders
- Publish Winners — makes the /winners page go live with actual winner names
- Unpublish button — revert to ???? state if needed
